October 4th, 2016

T4M Thermal Barcode Printer End-of-Sale

Printronix Auto ID has announced the end-of-sale of the T4M Thermal Barcode Printer line as of October 31st, 2016. Existing inventory of T4M printers will continue to be sold through the end of the year, based upon availability. Printronix Auto ID will continue to offer full support of the T4M in terms of technical support, spare parts and consumables availability through October 31st, 2021.

The T4M has been replaced by the new state-of-the-art T6000 Thermal Printer Series. The T6000 has set a new industry benchmark for mid-range production in terms of speed, versatility, and reliability:

1. **True speed**, productivity, & print quality that allows the T6000 to print at the highest speeds available in the market with readable print quality
2. **Versatile** "plug & play" simplicity in any 4" or 6" rugged environment with the most extensive number of printer languages in the industry, and the optional 4" On-Pitch RFID to meet growing industry needs
3. **Reliable** production through the industry's leading intelligent barcode printing system that prints, validates, and grades all in one step

The following is a partial list of the most commonly requested part numbers, and the equivalent version to replace the existing T4M Thermal Printer:

T6000 Part Number	T6000 Description	T4M Replacement Part Number
T62X4-1100-00	T6204 4" 203DPI	TT4M2-0100-00
T63X4-1100-00	T6304 4" 300DPI	TT4M3-0100-00
T62X6-1100-00	T6206 6" 203DPI	NA
T63X6-1100-00	T6306 6" 300DPI	NA
